### "The Guilded Dream"

A delightful love story directed by Rollin Sturgeon from a story by KATHERINE LEISER ROBBINS.

### Episode 4 of "King of the Circus"

EDDIE POLO had to pay a special bonus to the actors who played with him in this current serial. This was blood money. Po demands that actors with whom he fights before the camera stand up and take real blows, just as he is willing to endure slugging himself.

J. C. Colgate, who arrived the latter part of last week at his summer home, Ben Venue, Old Bennington, is on a fishing trip into northern Maine accompanied by Sidney Colgate of New York, a cousin.

Mr. and Mrs. Leon Eldred entertained at a card party Friday evening. Among those present were many from Hoosick and Petersburg. During the evening cards and other games were played. Refreshments were served about midnight. After having spent a very pleasant evening all departed about 2 a. m.

As the organ in the assembly room at the Vermont soldiers home, like the old soldiers themselves, has outlived its usefulness, the veterans there would be highly gratified if some charitably disposed individual or individuals would donate a piano to take its place. The instrument need not necessarily be a new one, if it is in good order.

County Clerk J. J. Shuckrober, State Attorney Collins M. Graves, Municipal Judge William J. Meagher and several of the local attorneys are in Manchester today to attend the opening of the June term of the Bennington court. The docket will soon be called. The docket will not be called today and a recess in one week will be taken because of other appointments of Judge Meagher.

THE CONE STUDIO

**The Candle Snuffers Were Snuffed.**  
 It is just about 500 years ago that candle snuffers were used to be used, for at that time there was a great advantage in the manufacture of the wicks which enabled the latter to burn more satisfactorily, and after that there was no use for the snuffers. The wicks of candles are put through a treatment of various chemicals before they are placed in the interior of the candle. This prevents them from smoking and from burning too rapidly.

**Saw Apparition of Dead Friend.**  
 Here is a peculiar case vouched for by an Alberta (Canada) reader. A lady of about fifty was walking in an open space when she met an old friend whom she thought was at sea. The man did not turn to look at her, but walked straight ahead. Returning home she told her friends of the incident only to learn that the seaman had returned home and had dropped dead at about the very time the lady thought she saw him.

### WORDS OF WISE MEN

The verb "to love" has no imperative.  
 For some women it's never too late to pretend.  
 People hate to get a reputation for what they really are.

## COMPANY NOT LIABLE

For Transmitting Wire Messages While U. S. Controls Line. Washington, June 7.—Contention of the Western Union Telegraph Company that it cannot be held liable for damages caused through errors transmitting messages while the lines were under federal control yesterday was upheld by the supreme court.

**Why She Stopped Her Papers.**  
 (From the Martinsville, Ill., Post.)  
 A lady reader will enter the speaking contest and will read her section. Aside from this a very interesting program will be given.

Seaweed is the source of paraffin.

Fishbones and other discarded portions are valuable fertilizers.

Shark skins are being tanned for shoe leather.

From the waste of margarine, soap is produced.

Salad oil is obtained from fruit stones and pits.

Dried cotton plant seeds are used as fertilizer and cattle food.

Waste fruits are employed in the making of perfumes.

Cleanings from feather pillows have been found to be rich in nitrogen.

Coal tar, formerly considered worthless, is a source of several dyes and chemicals.

The juice wasted from the removal of cherry seeds is made into a jelly with a rich flavor.

Cotton plant seeds, which once were burned, are now sources of a variety of food oils.

Cotton rags are used in the manufacture of paper, gunpowder and explosives.

## SENTENCE SERMONS

The eternal stars shine out as soon as it is dark enough.—Anon.

A man only understands what is akin to something already existing in himself.—Anon.

Prayer is not overcoming God's reluctance; it is laying hold of His highest willingness.—Trench.

I, the Lord, search the heart, I try the reins, even to give every man according to his ways, according to the fruit of his doings.—Jer. 27:10.

It is not the man who reaches the corner first who wins, but the man who knows exactly what he is going to do when he reaches the corner.—Charles E. Hughes.

ONCE UPON A TIME THERE WERE NO DOCTORS!

The Doctor Was Not Much Needed Until Folks Began to Break Nature's Laws.

Doctors Preach Prevention Is Better Than Cure.

Ninety per cent of all disease is preventable, so doctors say. Eat simple food, exercise wisely, sleep sufficiently, and—what is vitally important—make sure of the daily, regular, thorough elimination of body waste, and the chances are nine to one that you will keep well, work efficiently and enjoy life. Bowel elimination of food and tissue waste is all-important. But in case of irregularity, disordered or imperfect action do not make the common mistake of taking harsh, violently acting medicines, with the idea of forcing the bowels to act. Nature believes in mild methods. She responds best to persuasion.

So in selecting a simple remedy to regulate and assure proper bowel action, you should not use harsh or violently acting remedies, no matter how much has been claimed for them. You should choose some well-known, time tested, trial proven remedy, that has made its reputation by being used for many years, by all sorts of people, all over the world. Take Beecham's Pills for example. Beecham's is a household word, has been for many generations. Beecham's Pills is a household remedy, has been for over half a century. People not only take Beecham's but recommend Beecham's to their friends. Their use is handed down from father to son or from mother to daughter, from one generation to another. Did you ever hear any complaint or criticism of Beecham's? Isn't that a pretty powerful endorsement of their worth? Druggists are glad to sell Beecham's.

## Chiropractic!

When properly understood it is no longer a mystery and at once appeals to the intelligent man as a scientific method of healing the sick.

It is a well known fact, admitted by all schools of healing, that the Nervous System as a unit (The Brain, Spinal Cord, Cranial Nerves, Spinal Nerves, and the so-called sympathetic system) is that part of the Human Body through which the life principles operate during our physical existence. The nerves are the means whereby nerve stimuli is conveyed to every atom of tissue in the body. If there is no obstruction of the nerves to interfere with the proper distribution of the impulses or stimulus, it will reach its proper destination and normal function of all parts will be the result. This is HEALTH.
